WHO ARE WE

Unicom TIC is a Software development Training and Innovation Centre. As founders, we are children of Sri Lanka, who want to develop our home country economically and technologically. Objective of this fully funded program is to advance the 'industry ready' software developing talent in Sri Lanka.

- Full course fee of **LKR 925,000 fully funded from the UK.**
- A monthly allowance up to LKR 15,000 will be available for students under the poverty line who require relocation.

Do you want to become an Industry Ready Software Developer within a year?

Eligibility:

1. 17 years or older
2. Passion for technology
3. Logical thinking

Register your interest now to join our Feb-Mar 2024 intake.

Program Structure

SELECTION PROCESS

FULL TIME AND FACE-TO-FACE PARTICIPATION

STAGE 1
APPLICATION

Everyone registering an interest will receive an application form. This is designed to evaluate the logical thinking capacity and passion for technology of the applicants.

(APPLY NOW)

STAGE 2
WORKSHOPS & INTERVIEWS

Selected candidates from stage - 1 will be invited to attend a workshop and interview to be held across the regions designed to identify the suitable candidates for the course. All suitable candidates are eligible for 100% Scholarship.

(STARTING FEB 2024)

STAGE 3
TRAINING PROGRAM

Successful candidates from the selection process will be awarded a 100% scholarship to attend 9-month program at our UnicomTic Training and Innovation Centre in Jaffna. Continuous assessment will be performed during the 9-month period.

(STARTING MARCH 2024)

Candidates who pass the 9 month program will be:

- Awarded **'Industry Ready' Software Developer Certificate** from the CTO office in the UK.

- **Guaranteed job opportunities** in Sri Lanka with our reputed industry partners.

Candidates who fail will be given one further opportunity to pass the program within two months. Further failure will result in only a participation certificate being awarded.

*Unlike traditional qualifications the successful candidates will be able to start working in the industry immediately after the completion of the program. The qualification will be validated by Mr. Jon Guffaston, our Certificate Director and Chief Technological Officer (CTO) from our London Office — a recognized global technician. Our CTO office in the UK is a reputable software company known for delivering scalable solutions to global clients. Candidates are under no obligation to take up the opportunity. They may take up other opportunities elsewhere with the experience gained.

We are **NOT** a traditional Academic Institution. Our curriculum is designed to address real-world challenges faced in Software Development and delivered primarily by experts working in the Software Industry. Our sole aim is producing Software Developers who will be effective **immediately** after completing the program.

Training & Innovation Leadership Team from the UK

With a combined experience of 75 years in the global IT industry, Dr. Neil Anthony-Pillai and Jon Gustafsson from the UK bring extensive knowledge to Unicom TIC. Dr Anthony-Pillai has over 40 years of experience in the fields of technology and training. As the Co Founder and Chief Training and Innovation Director, Dr. Anthony-Pillai plays a pivotal role in shaping Unicom TIC's training framework. Jon Gustafsson, renowned as one of the world's foremost technicians, brings a wealth of technical expertise to Unicom TIC. His primary focus is on preparing every trainee for the demands of the industry, guaranteeing that certificates are endorsed directly from the Chief Technology Officer (CTO) in the UK Their expertise underpins our mission to provide high-quality training and industry-relevant skills.
